Education

Master of Science, Geospatial Technologies

University of Washington Tacoma

9/2022 – Present

- Intro to Geospatial Technology
- Web-Based GIS
- GIS Customization and Automation
- Mobile Geospatial Application Development
- Practicum I: Planning and Design

Bachelor of Science, Geology

University of Hawai'i Hilo

8/2020 – 5/2022

- Geology of Hawaiian Islands
- Deformation of the Earth
- Coastal Geology
- Volcanology
- Earth Surface Processes
- Surface Water
- Minerology
- GIS for Geology
- Geological Oceanography
- Petrology
- Sedimentary Processes
- Communicating Science
- Writing for Science and Technology
- Calculus One
- Calculus Two
- General Physics and Lab One: Mechanics
- General Physics and Lab Two: Electricity and Magnetism

- Dean's List Spring 2021

Associate of Arts, Geology

Highline College, Running Start Program

6/2018 – 6/2020

- Earthquake! Seismology
- Physical Geology
- Shaping the Earth
- Puget Sound Geology
- Puget Sound Landslides
- Introductory to Oceanography
- Introductory to Plants, Botany
- Introductory to Environmental Science
- General Chemistry One and Laboratory
- General Chemistry Two and Laboratory
- English Composition
- Research and Persuasive Writing
- Introduction to Communications
- General Psychology
- Introduction to Political Science
- Introduction to Ethics
- Digital Photography
- Yoga
- Total Fitness

- Vice-Presidents Honor Roll Fall 2019
- Women in Science and Engineering (WISE)

Employment and Extracurriculars

Transportation Engineering Intern

City of Renton

9/2022 – Present

- Collecting, presenting, and maintaining missing sidewalk GIS databases to create a multimodal future.
- Collecting and deploying Remote Permanent Count Traffic Systems.
- Updating and maintaining a bridge GIS database.
- Creating and maintaining a streetlight luminaire GIS database.

Geology Research Assistant

University of Hawai'i Hilo

2/2022 – 5/2022

Researching tephra deposits on Big Island, Hawaii for agricultural black cinder.

- Analyzing aerial photographs to discover if any new tephra deposits were created post the 2018 Kilauea eruption.
- Data entry, organization, and transport between Esri ArcGIS and Microsoft Office applications.
- Creating GIS layers, shapefiles, and projections based off tephra data qualities in ArcMap.
- Directing team members to the tephra deposit locations to collect sample data to test tephra quality.
- Projecting and presenting created layers to the team in Google Earth.

Crack Team

University of Hawai'i Hilo and United States Geological Survey – Hawaiian Volcano Observatory

8/2020 – 5/2022

- Collecting geodetic data on vertical deformation and cracks throughout Hawai'i Island. Research conducted since the 1960s for the United States Geological Survey – Hawaii Volcanoes Observatory (USGS-HVO).
- Presenting Author for the 'Leveling survey of Koa'e Fault System during the 2021 Kilauea dike intrusion' abstract and poster at the 2022 Geological Society of America (GSA) Joint Cordilleran and Rocky Mountain Section Meeting in Las Vegas, Nevada in March 2022.
- Featured in the front page of Hawaii Tribune Herald, Sunday November 21, 2021, Newspaper.

CARES Geology Lab Safety Assistant

University of Hawai'i Hilo

8/2020 – 5/2022

- Create an environment that allows students to decrease their risk of catching COVID-19 (coronavirus) during in-person academic courses and activities.
    - Cleaning classrooms, laboratories, doors and other geology department resources to ensure sanitization.

Geology Laboratory Assistant

University of Hawai'i Hilo

2/2021 – 12/2021

- Provided a variety of program information by connecting with the geology website development and design team to create a website that is suitable for the community, prospective students, current students, parents, and more.
    - Created a student and alumni panel, allowing them to share their experiences at the University of Hawai'i at Hilo Geology program. Presented a variety of information about what got them there, what they are doing now, why geology, what they did at UHH including tips, tricks, and more.

Barista Partner

Starbucks Coffee Company, Downtown Hilo

2/2022 – 8/2022

Barista Partner

Starbucks Coffee Company, 64th & Meeker

9/2018 – 6/2020

Board of Director

Kent Youth and Family Services

4/2017 – 6/2020

- Understanding and developing programs and services that help the family and youth of the community. Providing a youthful and student standpoint while serving on the Board of Directors.

Skills and Experiences

- Microsoft Office Applications
- Adobe Applications
- HTML
- CSS
- JavaScript
- Python
- Esri ArcPro Applications
- Esri ArcGIS Desktop Applications
- Esri ArcGIS Online Applications
- Photography, Videography and Audio-Visual Equipment
- Cash and Credit Handling
- Data Collection, Analysis and Projection Presentations
- Science and Community Communications
- Food and Drink Handling
- Customer Services

Hobbies, Interests, etc…

- I'm known for my homemade cookies and garlic focaccia.
- Collect maps as souvenirs for the places I've traveled.
- I wanted to study geology because I wanted to know what happened when you touched lava.
- My favorite rock is an Orthoconglomerate, an oceanic based sedimentary rock.
- My favorite minerals are Micas, specifically biotite and muscovite.
- I moved to Hawaii because I hated the sun and the sand, I wanted college to be uncomfortable.
- My favorite fruit is Lilikoi, specifically when it is in a dessert bar or cheesecake.
